

Country Christian School Graduation Requirements

Basic Requirements Only

The following is a brief outline of the very basic requirements necessary to graduate from Country Christian School. We go by courses taken and passed, not by credits! So you will not find a listing of how many credits are required per course here, or how many total credits are needed in order to graduate. What we are listing are the classes / courses that are mandatory in order to graduate.

We realize parents want the very best for their children, including a well rounded education. What we see more often than not are many extra classes / courses that students take and gain credit for. When our students graduate, they often have twice as many classes / courses completed as are listed here because they enjoy learning and their parents help provide a well rounded education for them.

If your child is taking a class / course you would like him to receive credit for and it is not listed here, PLEASE contact us and let us know. We are happy to work with you and your child.
